WORK EXPERIENCE

Kinsta   **July 2021 – November 2023**
Javascript Developer   *Remote*
- Focused on Typescript development with React, Node, GraphQL, Postgres, Prisma, and Redis, but also gained experience with Helm, Kubernetes, Docker, and Google Cloud services.
- I led the integration of Nixpacks into the customer's project build system as well as designed and implemented a sleep system for unused projects utilizing event-driven architecture.
- I led the integration of Mixpanel and designed schemas to gather user and product analytics.
- Continued to provide support and assistance for the features developed, including documentation and serving as a subject matter expert (SME)

Function   **June 2021 – June 2023**
Co-Founder/Co-Owner   *El Paso, TX*
- Founded and co-owned a local music venue dedicated to Techno, House, and underground music in the borderland area. This venture was mainly started as a hobby and a side project with friends.
- Learned business management and dealt with various aspects of running a venue while growing from a small establishment to one of the largest clubs in the southwest.
- Pushed the local music scene beyond expectations and hosted unique events for the city. Despite success, we decided to end the venture due to exhaustion.

E-Dealer Direct   **March 2020 – April 2020, July 2020 – December 2021**
Software Engineer   *El Paso, TX / Remote*
- Utilized technologies such as React, React Native, Redux, SCSS, ElasticSearch, and Ruby on Rails.
- It being a small start-up with a small engineering team (2 people), I owned the development and design of both our mobile application and a B2B product, interfacing with financial organizations such as Credit Unions.

Patrick Thomas & Partners   **May 2020 – February 2021**
Software Consultant (Contract)   *Remote*
- Utilized React, React Native, GraphQL, Apollo Federation, Styled Components, Typescript, Elasticsearch, and various AWS services (EC2, SQS, Lambdas).
- I delivered complete solutions for web and mobile applications, including Apple and Android platforms.
- I owned the development of a multi-tenant, distributed system while collaborating with global clients.

C3i Solutions   **March 2017 – March 2020**
Project Coordinator I   *El Paso, TX*
- Assisted in transitioning the support program through multiple client product launches.
- Made data-driven decisions using analytics from Salesforce and JIRA, broadcasted widespread user issues, and maintained our knowledge base.
- Analyzed flat files and API request issues as part of client-partner relationship maintenance.
